

On the Beach at Night Alone

밤의 해변에서 혼자

An actress (The Handmaiden's Kim Min-hee) licks her wounds after an affair with a married man falls apart. Her behavior becomes even more erratic—and then her ex returns. That Hong Sang-soo's latest is a response to the director's own highly publicized affair with his leading lady only makes this confessional character study even more compelling. In Korean and German with English subtitles.
